## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The examiner has taken into consideration's appellant's arguments, specifically arguments presented regarding claim 1, on page 14 of Appeal Brief filed. The appellant specifically discloses wherein the modification of the metal housing of Crowley et al, to cover the front surface of a printed circuit board while leaving at least the part of the printed circuit board on which an internal antenna is disposed uncovered by the metal housing would change the principle of the operation as set forth by Crowley.

The examiner agrees with the applicant's assertion that the Crowley fully encloses the antenna, while an external antenna is arranged to pickup RF signals and keeps them from close proximity to a person who is using the telephone. By modifying the Crowley reference the external antenna would no longer be arranged to keep the RF signals from close proximity to a person who is using the telephone.

Because the metal housing arrangement as disclosed by Crowley would not fulfill the purpose of shielding the user from RF signals if modified by the Yokohama reference, the examiner withdraws the Rejection of claims 1-9 under 35 U.S.C. 103(a) as being unpatentable over Yokohama (0 522 538 A2) in view of Crowley et al. (US 5,493,702).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2618

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
